THE PLAINS CAMP
BUSANGA

BUSANGA BROCHURE FRONT AND BACK

AN INVITATION TO A GENUINE AFRICAN SAFARI

• AT THE PLAINS CAMP • BUSANGA •

There was a time in Africa when every safari destination took days to get to, when every journey called for a sense of adventure, a desire to explore the unknown, the as yet undiscovered. A time when wild animals were never habituated, humans were as rare a sighting to them as they were to humans. This was a romantic era, an era of adventure, when the call to go on safari was a thing keenly felt.

Nowadays it is difficult to find places so untouched. But the yearning to explore, to get close to nature has not lessened. That is why the Mukambi Safari Lodge is proud to invite you to the Plains Camp Busanga. Our tented camp lies in an area so remote that few people, even in the safari business, have heard about it.

On the plains, lion and cheetah prey on the large herds of Puku, Wildebeest and Buffalo. Lechwe graze close to the swamps where shy Sitatunga hide in the papyrus reeds. Crowned and Wattled Cranes, Secretary Birds and Ground Hornbills stalk the savannah grasslands whose openness is interrupted only by tree studded islands, where fig trees and wild date palms draw their nutrients from the remains of giant anthills. It is a landscape so distinctive, like no other you will see in Africa.

Karen Blixen said 'If there was one thing I could do again, it would be to go on Safari.' If you can, be one of the first to experience the unique remoteness of The Plains Camp Busanga. Join us on an old fashioned safari.
